# FLASHPRO-E IRONCLAD

solid-state destroyer

High-volume destroyer designed  
to shred digital media in the office.

## Diverse destruction

Destroys smartphones, minitables, USB sticks, SSDs and optical media.

## Unrecoverable

Shred chips to average size 0.16in. x 0.6in. (4mm x 15mm) preventing recovery.

## SmartCut™ system

Cutting wheels automatically adjust to fit the size of the media.

## IRONCLAD erasure verification system

- Complete **proof of erasure**

- **Image capture** of destroyed media

- Record serial number, operator ID, gauss field strength and erasure status

- Generate **audit-worthy Certificate of Erasure and Destruction Report**

- Export **JPG, PDF, CSV or Excel** formats to USB, ethernet or optical media

- **New user friendly** "Verification mode" or **high-speed** "Processing mode"

## Why shred?

Solid-state media cannot be degaussed, so must be run through a shredder or otherwise destroyed.

Avoid the risks and hassle of outsourcing to a third-party shredding service provider - bring secure destruction in-house with the FLASHPRO-E media destroyer.
