

PD-5E IRONCLAD

media destroyer

NSA listed for destruction of
magnetic and solid-state media.

Office friendly

The size of a desktop computer, quiet and no messy hydraulic fluid.

Easy to use

Push-button operation and secure door lockout system for safe usage.

Fast and powerful

Delivers 7+ tonnes of crushing power in 18 seconds or less.

IRONCLAD erasure verification system

- Complete **proof of erasure**
- **Image capture** of destroyed media
- Record serial number, operator ID, crush depth and destruction status
- Generate **audit-worthy Certificate of Erasure and Destruction Report**
- Export **JPG, PDF, CSV or Excel** formats to USB, ethernet or optical media
- **New user friendly** "Verification mode" or **high-speed** "Processing mode"

? Why degauss?

Degaussing is **the best way to dispose of sensitive data** on end-of-life media, according to NIST's Guidelines for Media Sanitization.

It's **quicker, easier** and more **eco-friendly** than shredding, and enables bulletproof compliance with **GDPR & PCI-DSS** regulations.
